Explanation of changes to your 2013 Form 1040EZ

This section tells you specifically what income information the IRS received about you from others (including your employers, banks, mortgage holders, etc.). This information doesn't match the information you reported on your tax return.

Use the table to compare the data the IRS received from others to the information you reported on your tax return to understand where the difference(s) occurred. To assist you in reviewing your income amounts, the table may include both reported and unreported amounts.

Note: This is one of the best and most authoritative proofs of cancellation of debt by the DCS system. This customer began the process in May of 2014, and received this victory statement in September 2015. The fact that the IRS is saying this customer owes income tax on the cancelled debt is of no concern, because we showed her how to convert the payment coupon into a money order to pay it. The IRS calling it "income" is absolute proof from the fed itself, that the debt cancellation worked.
